Welcome to Bangkok in the heart of ASEAN!

After celebrating a very successful restart together with our exhibitors and visiting industry professionals in October 2022, we now very much look forward to presenting the next “LogiMAT | Intelligent Warehouse” in Bangkok from October 25 to 27, 2023.

The sister event of Logimat Stuttgart, the world's leading intralogistics exhibition, is jointly organized and supported by the Thai Intralogistics - Association and Expolink Global Network. This combined with the international strengths of Euroexpo and Messe Stuttgart enables the organizers of “LogiMAT | Intelligent Warehouse,” to offer our exhibitors a premium platform with opportunities to meet and network with new regional and global business partners. We are happy to offer you full support and promote all your activities.

After some difficult years, it is great to witness that the industry is growing. For the ASEAN region, the opportunities are huge. Not only in Thailand, but key countries in the region like Vietnam, Malaysia, The Philipines and Indonesia see strong growth in all segments of intralogistics.

Leading industrial enterprises from all over the world are expanding their networks to spread procurement and production risks, transforming global supply chains in the process. Innovative entrepreneurs join these global supply chains as strong, reliable new partners, fueling the dynamic potential in the ASEAN markets.

On behalf of the entire “LogiMAT | Intelligent Warehouse” team, I cordially invite you to use this show in October 2023 as a platform to present your innovations and solutions to the world.

We look forward to seeing you again in Bangkok this year.
