MEET THE BOOMING MARKET in Southeast Asia!

5 Reasons to Exhibit at LogiMAT & LogiFOOD Southeast Asia 2025

Specialists - AI - Sustainability

Tap into a Growing Investment Market

Southeast Asia attracts \$220 billion in annual foreign direct investment, fueled by growth in renewable energy, manufacturing, and supply chains. LogiMAT SEA is the ideal stage to present innovative logistics solutions to meet the region's dynamic and expanding demands.

Connect with Industry Leaders

LogiMAT brings together global exhibitors presenting smart systems, automation, virtual reality, and real-time data exchange, setting trends and creating opportunities for collaboration.

Focus on AI, Specialists, and Sustainability

Dive into critical themes shaping the future, including artificial intelligence, digital transformation, and sustainability. Exhibitors showcase technologies that streamline processes, boost efficiency, and reduce environmental impact, offering insights and solutions for the attendees.

Gain Practical Knowledge and Future Insights

From procurement to delivery, LogiMAT SEA provides a comprehensive overview of logistics processes. Attendees gain actionable strategies to optimize costs, enhance efficiency, and embrace sustainable practices.

Embrace Digital Transformation

With advances in IT, automation, and smart technologies, LogiMAT SEA showcases solutions bridging human expertise and machine efficiency.

Join **LogiMAT Southeast Asia 2025** & **LogiFOOD Southeast Asia 2025** and be a part of the future of logistics!

LogiMAT SEA: WHO SHOULD EXHIBIT?

Intralogistics, Transportation & Process Management

As a regional extension of the globally recognized LogiMAT from Germany, the Southeast Asia edition showcases cutting-edge innovations in material handling, warehouse management systems, automation, robotics, and supply chain optimization. It serves as a vital Southeast Asian hub for industry professionals seeking smart solutions to meet the demands of modern logistics.

Material handling and storage system

Warehouse and equipment

Warehouse and production controls / robotics

Packaging, weighing, measuring, franking

Loading technology and systems

Retrofitting

Industrial trucks and accessories

Information and communications technology

Order-picking systems

Labelling and identification

Simulation software

Shipping and transport software

Stock management, inventory, and archiving software

Drive technology

Energy, environmental technology, recycling, waste disposal

Security

Outsourcing partners

Logistics facilities

Consulting, planning, implementation

Third-party logistics (3PL) providers / 4PL / 5PL

Warehouse and distribution services

Last mile delivery, express logistics and urban logistics solutions

Autonomous vehicles and drones for delivery

LogiFOOD SEA: WHO SHOULD EXHIBIT?

Food Logistics, Cold Chain Solutions, Transportation & More

LogiFOOD Southeast Asia is a dedicated showcase spotlighting end-to-end logistics solutions tailored for the temperature-controlled supply chain. This special showcase is designed for professionals in food logistics, cold chain, and perishable goods distribution, presenting state-of-the-art technologies, equipment, and best practices specific to the sector.
